Testing & Refinement	<ul style="list-style-type: none">Functional testingUI/UX improvementsBug fixing	Upcoming	<div><div style="width: 0%; background-color: #2e7131;">0%</div></div>	2 weeks	<ul style="list-style-type: none">QA teamProject team	"Pilot testing with real users"
Deployment & Presentation	<ul style="list-style-type: none">Deploy demo versionFinal documentationGraduation presentation	Upcoming	<div><div style="width: 0%; background-color: #2e7131;">0%</div></div>	2 weeks	<ul style="list-style-type: none">Project team	"Prepare live demo & slides"

Summary

The project time plan will span one academic term and break down activities into phases with clear milestones. A Gantt-style schedule can be used to visualize the distribution of tasks across weeks, showing overlaps and dependencies between analysis, design, development, and testing.
